

SLK Single Line Keypad

Product Brief

The SLK Single Line Keypad is an in-wall Decora® style single-gang keypad designed for individual zone control of an MCA-C3 or MCA-C5 Multizone Controller Amplifier.

The SLK uses a five character LCD to display the current source, volume level and system status. Designed for basic zone control, its white backlit, soft-touch buttons allow for easy access to volume, power and source selection.

For added convenience, you can turn the whole system on or off and the SLK features an IR receiver for control and IR repeating.

The SLK is an ideal companion for systems using the My Russound application on supported hand-held devices. Use SCS-C5 for pre-configuring zone audio properties such as Bass, Treble, Loudness or Balance.

Features	Benefits
Convenience	5 Character LCD shows source name, volume level and system status
Versatile	Single-gang Decora®-style design, available in five colors
Ease of use	Soft buttons and visual feedback
